Education

Bachelor of Commerce (B. Com)

Delhi University | 2024 – 2027 (Expected)

Relevant Coursework: Business Statistics, Accounting, and Financial Management

Technical Skills and Soft Skills

- **Languages:** Python, R, HTML, CSS
 - **Databases:** MySQL, PostgreSQL
 - **Data Visualization:** Power BI, Microsoft Excel
 - **Data Cleaning & Analysis:** SQL, Excel, Python (Pandas, NumPy, Seaborn and Matplotlib)
 - **Tools:** Microsoft Word, Microsoft PowerPoint
 - **Soft Skills:** Effective Communication, Quick Learner, Problem-Solving, Collaboration & Teamwork
-

Projects

1. **Cryptocurrency Data Analysis Script** ([GitHub Repo](#))
Analyzed historical cryptocurrency data and built visual insights. Used Python and Pandas for cleaning and analysis.
 2. **Console flare Analytics Portal** ([GitHub Repo](#))
Developed an interactive dashboard for Console flare using Power BI, enabling insights into student behavior and course performance.
 3. **Voice-Activated Virtual Assistant – Jarvis Lite** ([GitHub Repo](#))
Created a virtual assistant using Python, Speech Recognition, and Google Gemini API. It automates tasks like browsing, music, and news.
 4. **Automated Data Cleaning Tool** ([GitHub Repo](#))
Built a Python script that automatically cleans datasets (CSV, Excel), handling duplicates and missing data.
-

Certificates

1. **Data Analytics Job Simulation** | Simplilearn x Forage ([Certificate Link](#))
Completed a project-focused simulation involving SQL, data analytics, and commercial insights.
 2. **Data Analytics Consulting Virtual Internship** | Accenture x Forage ([Certificate Link](#))
Developed business insights and presented data-driven recommendations in a real-world consulting scenario.
 3. **Certificate in Presenting Data** | HP LIFE ([Certificate Link](#))
Learned to choose and format charts and graphs, and present data effectively through storytelling.
 4. **Certificate in Data Science & Analytics** | HP LIFE ([Certificate Link](#))
Covered data collection, cleaning, visualization, and applying statistical methods for business decisions.
